General Review

Astoria and Clatsop County are rich in historic interest and importance. Early events occurring here had far reaching effects, eventually resulting in Oregon and the Pacific Northwest becoming a part of the United States instead of the possession of a foreign power.

Urged on by the desire to find a fabled "Northwest Passage" by water across the North American continent, Spanish and British ex-

plorers had sailed along the Oregon and Washington coastline, but the Columbia River was not discovered until 1792, when Captain Robert Gray of Boston entered the river and named it after his ship, the "Columbia."

In 1804, President Jefferson appointed Captains Meriweather Lewis and William Clark to head an expedition across the western plains and mountains to the Pacific Ocean. Lewis and Clark explored the Lower Columbia region and spent the winter of 1805-1806 at Fort Clatsop, near Astoria.

Fort Clatsop, a national memorial park, the 1805-06 headquarters of Lewis & Clark near Astoria was rebuilt in its exact replica in 1955, and is one of the finest tourist attractions on the Pacific Coast today. Located on the exact site of the original fort, 3 miles east of Highway 101 between Astoria and Warrenton.

In 1810, John Jacob Astor of New York, organized the Pacific Fur Company to engage in the fur trade on the Columbia River. This company sent the ship "Tonquin" by sea and another party overland, the two to meet at the mouth of the Columbia River. The men in the "Tonquin" arrived at their destination in March, 1811, and built Fort Astoria, the first permanent American settlement on the Pacific Coast. After many hardships and loss of lives the overland party arrived in the winter of 1811. Due to the War of 1812 and the loss of relief ships, the fort passed into the possession of the British, but was restored to the American flag in 1818.

Astoria today is a modern city of about approx. 11,000 population, the commercial, financial and shipping center of the Lower Columbia River district of Northwestern Oregon and Southwestern Washington. Most of the Astoria business district was rebuilt following a disastrous fire in 1922 and its stores and office buildings are a credit to a city of its size.

At the larger waterfront docks ocean liners load for ports around the world. Astoria Bridge (a new 4.1 mi-long bridge crosses mouth of Columbia) across the Columbia River connects the highway systems of Oregon and Washington.

Astoria's hotels, restaurants, garages and a modern retail shopping district furnish a complete, satisfactory service to the traveling public.

Basic Industrial Resources

Astoria is the headquarters of the Columbia River fishing industry. Plants located in or near Astoria produce canned, frozen and cured salmon, fish meal and oil with an estimated value of \$30,000,000 annually. A newly developed industry, steadily growing in economic importance, is the tuna fishing and packing industry. White meat albacore tuna are caught by deep-sea trollers beyond the mouth of the Columbia River in the Pacific Ocean, and the majority of salmon canneries have facilities for tuna canning also.

Timber, several varieties, all growing to immense size, forms the basin of a large logging and lumbering industry in Clatsop County. Fir, hemlock, spruce and cedar grow thickly on the slopes of the Coastal Range. The logs are hauled by motor truck to tidal streams, then towed to Columbia River sawmills. There they are made into every kind of lumber or converted to other wood products, such as veneer, plywood, shingles, pulp and paper, eventually going to markets all over the world.

Agriculture—highly specialized, producing top quality, high value crops—is concentrated mostly along the Columbia River and its Tributaries and in coastal river valleys. The principal dairy farms are stocked

with herds of high producing agricultural activity. Dairying and beef cattle are favored by a long period of green pasture, large yields of root and forage crops.

Other important agricultural products are eggs, poultry, bent grass seed, cranberries, bulbs and vegetables.

Climate

The geographical location of Astoria produces a mild equable climate, spring-like most of the year. There are no extremes of heat or cold. Temperatures below freezing are usually of only a few days' duration and there are no summer "heat waves" or drought periods. The average frostless growing season is nearly ten months. The mean maximum temperature in December is 43. The average annual rainfall is about 79 inches, most of which falls between November 1st and March 1st.

Recreational Attractions

Astoria is at the center of a beach resort recreational area along the Oregon and Washington coasts north and south of the Columbia River. The Clatsop beaches offer the vacationist and tourist unequalled opportunity for rest and recreation. Southward from the Columbia River for thirty miles reach the smooth, surfwashed sands of the beaches.

Along this stretch of interesting ocean front are located the resort communities of Seaside, Gearhart, Hammond and Cannon Beach. There are accommodations to satisfy individual desire or fit any expense budget--modern hotels, comfortable cottages, auto courts or camping sites. The restaurants and markets offer all kinds of fresh sea food and garden vegetables.

Many interesting and historic tourist attractions are to be found in and near Astoria, including the famous Astoria Column, Columbia River Maritime Museum, Fort Clatsop, Fort Astoria, Fort Stevens State Park, the wreck of Peter Iredale, Saddle Mountain State Park, Ecola State Park, Clatsop County Historical Museum, Lightship Columbia, Coast Guard Cutter Yocona, plus many other attractions for the tourist.

The Astoria Area Chamber of Commerce, Port of Astoria Building maintains an information service for tourists and others interested in Astoria and Clatsop County. Booklets, maps and other materials are available free to inquirers.

GEARHART

A Post Office on the Burlington Northern Railway; 15 miles southwest of Astoria and 3 miles from Seaside, Gearhart has a population of 875.

GEARHART, in 1849, was the home of two adults, four children, four cows, two calves and two American mares. It was the home of the Philip Gearhart farm, and the area remained primarily a farming community until the Gearhart Park Company was formed in 1913 "to establish and maintain a beach resort." Capital stock of \$300,000 was sold and the area did indeed become a beach resort.

Situated just north of Seaside off U. S. Highway 101 on the shores of the Pacific, Gearhart now lures more and more vacationers and conventioners each year with elegant accommodations and excellent restaurants and cocktail lounges. The Gearhart beach is highly acclaimed

for its productive surf and dory fishing and clamming. Also of interest to outdoorsmen are Gearhart's 18-hole public golf course, its riding stables and easy access to nearby camping, hunting, fishing and water skiing.

HAMMOND

Population 550

HAMMOND was incorporated in 1899 under the name of New Astoria. But since A. B. Hammond, an early community leader had most of the town's public buildings named after him, voters in a 1915 public election cast their votes in favor of putting a stop to the confusion and named the entire town after him.

One half mile from Hammond is Fort Stevens, built during the 1860's to guard the entrance to the Columbia River. Battery Russell at Fort Stevens was the only fortified spot in the United States to be fired upon by the Japanese in World War II. Also located at Fort Stevens is the wreck of the Peter Iredale. This was a British bark of 2,075 tons which was stranded on Clatsop beach, October 25, 1906.

SEASIDE

(Courtesy of Chamber of Commerce)

The City of Seaside is located on Clatsop Beach at the Junction of the Necanicum and Neawanna Rivers 79 miles west of Portland via the Sunset Highway. Seaside is the most important beach resort in the Pacific Northwest on the Pacific Ocean and has a permanent population of 4,500 with as high as 30,000 visitors during the summer months. Seaside is the home of the Miss Oregon Pageant which is held in Seaside each summer. The city is served by the Greyhound Motor Stages and the Harbor Air Lines. From Portland it is little more than 1½ hours' driving time to the resort city officially designated as the "End of the Lewis and Clark Trail."

SEASIDE, unlike Gearhart, was not at any time intended to be a small, rural farming community. From the day of dynamic Ben Holladay's arrival on the scene in 1871, Seaside was destined to become what it is today: "Oregon's leading resort city by the sea!"

Ben Holladay, shipping magnate, stage coach operator and railroad builder, bought a large land claim and constructed the Seaside House, a famous hotel for which the city was finally named. Holladay's lavish hotel was surrounded by a stable of fine horses, barns and a race track. Cages of wild animals were on display nearby and tame deer wandered the grounds at will.

A trap in the Necanicum River provided fresh fish each day. A flag flew from a flag staff atop the hotel, to be saluted by the firing of cannons aboard Holladay's steamers as they journeyed up and down the coast. Seaside became known as the "The Coastal Capital of Oregon." The title still stands.

In 1920, Seaside's famed paved Promenade was built. It extends more than 8,000 feet along the city's ocean frontage property. The Prom affords stollers majestic views south to Tillamook Head, east to picturesque Saddle Mountain and west to the blue Pacific.

Driving west on Seaside's Broadway Street, one reaches Seaside's popular ocean-view "Turnaround," a point officially designated as the end of the Lewis and Clark trail. The "Turnaround" is just a few blocks north of the Lewis and Clark salt cairn where, in the winter of 1805-06, men boiled sea water day and night in a successful effort to keep their Fort Clatsop party provided with salt. The salt cairn has been restored at its original site. Many other points of historical significance are located within the city.

For the recreation-minded, the Seaside area offers all an Oregon coastal community can offer, from surfing and clamming to golfing and horseback riding. If you like your fishing nearby, walk a few blocks to the Necanicum River. It flows practically through the center of Seaside, and produces some of the finest salmon and steelhead fishing in the state.

The Seaside Civic and Convention Center was completed in 1972 and has since accommodated thousands of people at conventions and special events with the number growing every year.

WARRENTON

The City of Warrenton, with a population of 2,150, is located in the northwest section of Clatsop County. The city was incorporated in 1899, and operates under the City Manager plan of government. The Skipanon River, a navigable stream, is used by ocean going vessels for the transportation of lumber and by local fishing fleets. The stream being located through the industrial district and directly connected to the Columbia insures a fishing industry and seagoing commerce to all industries requiring it. There is a complete grade and high school system as well as adequate churches. Railway freight transportation is by the Burlington Northern Railway.

WARRENTON, in 1899, was named for Daniel Knight Warren who owned 160 acres at the present site of the city. His hired Chinese laborers hand-built a dike two and one-half miles long on the Skipanon River, and soon thereafter Warrenton became the thriving fishing community it remains today.

Warrenton is geographically the largest city in the county. Its unique location and amount of space make its development potential the greatest in the area.

Visitors are welcome at Warrenton's commercial packing houses where they will be interested in seeing firsthand the care given to the canning, freezing and packaging of crab, salmon, tuna, shrimp and bottom fish.

Dant & Russell Inc. has one of the newest and most modern lumber mills in the Pacific Northwest.

Power of Advertising

THE CITY DIRECTORY is the power that generates information for the buyer that he may know who deals in the product he wishes to purchase. If your business is not classified properly, and a display advertisement arranged to describe your business, how can you expect the buyer to trade with you?

ADVERTISING is the foundation upon which successful businesses are built. You must apply this to your own particular business.

ADVERTISING is the power of an idea multiplied.

VITAL INFORMATION AT YOUR FINGER-TIPS!

‡ Tens of thousands of people who were formerly strangers to the City Directory are consulting it on questions of citizenship, employment, sources of supply, communication, etc. Also, Directory usage is up among regular subscribers.

SEEING CITY DIRECTORY ADS

Out of Sight--Out of Mind

☆ Out of Business ☆

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight. *Insist on being well represented in its pages.*

NUMERICAL TELEPHONE DIRECTORY

The Telephone Numbers
and names in this
Directory were
supplied to us during
our regular door-to-

NUMERICAL TELEPHONE DIRECTORY

BLUE PAGES

This Directory takes the "mystery" out of blind numbers. It lists telephone numbers in numerical sequence, making it easy to "decode" blind phone numbers in classified ads—especially valuable for real estate agencies, used car dealers, etc.

WHAT'S IN A PHONE NUMBER?

ABOUT THE FIRM:

Who called me? When your call back message gives a telephone number only—or includes a common surname such as Jones, Smith, Brown, etc.—this Numerical Telephone Directory will assist in determining correct firm name. Make use of both Alphabetical and Street Guide information to establish names of officers, owners or partners, products and services, and correct address. Properly identify firm and caller and have needed records, file or correspondence on hand before returning call.

ABOUT THE INDIVIDUAL:

Who called me? When only a telephone number is known, this Numerical Telephone Directory will assist in determining the name of the subscriber—with this information combined with other sections of your City Directory you may quickly establish such information as wife's name, place of employment, job title, home address, business address and telephone number.

OUT - OF - TOWN CITY DIRECTORIES

A complete library of out - of - town City Directories is maintained especially for the reference use of our subscribers. We invite you to consult this library of up-to-date Directories when in need of names, addresses, and other information about firms and individuals in other cities. This is a part of our service to local City Directory users.

Features and Departments of a City Directory

Your new, improved City Directory is the most complete and comprehensive catalog ever published of the inhabitants, business concerns and institutions of your city. It is much more than just an alphabetical list of names and addresses.

Your City Directory Contains:

- 1** An *Alphabetical* list of names and addresses of residents, business concerns and institutions, plus wife's name and if a widow the deceased husband's initial, and the occupations of all. Principal officers or owners and a description of businesses are included as well.
- 2** A *Householders' Directory* including a Street and Avenue Guide. This section lists every street and where intersecting streets appear. It lists numerically every location on each street, naming the householder or business at each number and whether the person is a homeowner or renter and if he has a telephone. Similar information is provided on office and public buildings and their occupants.
- 3** A *Classified Business Directory*—listing every business, classified as to type, and showing names and addresses. It also lists every profession, club, society and association, hospital and cemetery, labor organization, library, park and playground and school.
- 4** A "Yellow Section" or *Buyers' Guide*, where the advertiser may explain in greater detail the services or products he has to offer.
- 5** A *Statistical and Historical Story* of your city; plus miscellaneous other information.

VITAL INFORMATION AT YOUR FINGER-TIPS!

♦ Tens of thousands of people who were formerly strangers to the City Directory are consulting it on questions of citizenship, employment, sources of supply, communication, etc. Also, Directory usage is up among regular subscribers.

☆ Out of Business ☆

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight. *Insist on being well represented in its pages.*
